

CATASTROPHE OCCURS NEW MEXICO COAL MINE

Of Life—Five Men Have Been Rescued This Far and Strenuous Efforts Are Being Made to Reach Others—Grief-Stricken Women and Children Huddle Around the Entrance to the Mine in Awful Suspense.

Dawson, Oct. 25.—Hundreds of mothers, wives and children today pressed the line of guards thrown about the mouth of the mine, waiting for the word to learn the fate of approximately 200 miners remaining in the mine since the explosion yesterday at 3 o'clock.

Twenty-five survivors and 25 dead bodies were taken to the hospital, and scores of men volunteered today to proceed through the debris which was said to have blocked the mine below the second level.

Event Available Man Secured.

The United States rescue car stationed at Trinidad was summoned, and every available man in Dawson hastened to the mine, but the attempt to reach the entrapped miners.

Rescuers worked heroically to supply

Five miners are connected in the workings, and it is thought that if any of them are trapped, they will be able to reach the surface.

Hopes Entertained.

Hope was held out that the great shaft which were worked all night long would be able to reach the trapped men might be found alive.

Optimism as to the cause of the explosion was also held out, and it was thought that black damp limited and exploded. Later, the fact developed that this time the explosion was caused by a fire in the southern district of Colorado became dangerous from the prevalence of coal gas, and it was thought that the mine might be able to keep under control, and this level might be able to reach the surface.

General Superintendent Douglas, of the Colorado Fuel and Iron Co., was reported to be hurrying here from Douglas, Ariz.

The loss of life is expected to be shown by the cull of the coroner on Trinidad and Denver for a big surprise.

During the night's light, to reach the

debris resulting from the explosion.

Accounts from Dawson and Itaton were uncertain as to the possibility of rescue. Itaton said that the rescue statement came from El Paso, Texas, expressing hope that the fact that the relief was based on the fact that workings of No. 2 mine are connected by a drift, and that the drift is not a main shaft is expected to furnish another means of exit. Immediate relief work was being done to get the main shaft and neighboring reefs. Appeals for aid started across country for the rescue of the miners. The rescue of the rounder coal camp shortly after 6 o'clock, and they were expected to be rescued.

Dawson, N.M., Oct. 23.—By 10 o'clock the rescue work had been going on more than 100 feet into the mouth of the mine and had reached five of the reefs. The rescue work had been going on more than 100 feet into the mouth of the mine and had reached five of the reefs. The rescue work had been going on more than 100 feet into the mouth of the mine and had reached five of the reefs.

It is believed the explosion occurred under conditions which have been met by other mines. The explosion was a disaster. It is now believed that the air

[illegible]

of the men known to have been caught in the explosion will have been found.

Cause Unknown.

Dawson, U. S. M. O., said the cause of the explosion is unknown. Fire had not broken out, though smoke was seen issuing from the second level of the shaft. It was believed by rescuers that this smoke came from the explosion and not from fire.

Immediately after the explosion all shafts were closed to rescue or to rescue miners who were employed. In other shafts were put to work drilling

the construction of a cable line from the Philippines to China.

The U. S. Supreme court, which was chairman of the American delegation which drafted the treaty.

Attorneys for the government argued that the American delegates, through Justice Day, repeatedly refused to become responsible for the obligations of the Spanish government. That that did not prevent the United States from being responsible under international law," Justice Day commented.

TORIES RESORT TO OLD CRY OF SECTIONALISM

Estimates and All Railway Bills Passed—Same and Statesman-like Discussion on Light Railways—Premier Sifton Leaves for Ottawa to Attend Provincial Conference.

With the estimates and all the railway bills passed by the house and approved by the lieutenant governor, and the premier on his way to Ottawa to attend the interprovincial conference, the Alberta legislature may be said to have transacted some business yesterday.

Driven to the wall and exposed in all their ignorance, the members of the opposition fell back upon the old cry of sectionalism in dealing with the railway question. What a pity that the honorable member for Peace River was not in his seat to hear his conservative colleagues belittle the constituency for which they profess a professed unfriendly friendship! They shrieked and yelled because railway companies persisted in building to the north instead of completing their lines in the south. Admitting that the lines in the south should long since have been in operation, there is no reason why the construction of northern roads should be deferred.

Again the opposition sought to create the impression that money obtained by the railways through the guarantee of the Alberta government was being used on lines other than those guaranteed. This is one of the favorite Tory slanders. They know full well that not a penny of the funds obtained by reason of the guarantee of the Alberta government is or has been expended for any other purpose than that for which it was intended. No railway company can obtain one cent except upon process estimates and they must show progress before they are paid. The opposition may infer that money obtained in Alberta was spent in South America. This is in keeping with their policy of "blowing" everything in the province. They forget that "every sparrow is a boot" and the world despises a knacker.

At the conclusion of the night session, Premier Sifton thanked the members on both sides for the part they had taken in the bill, and then he gave the thanks in which his department was directly interested, and hoped that the concluding days of the session would see equal progress.

Nice Work.
The most sane and statesmanlike discussion of the present session of the legislature was that which took place in committee of the whole on the bill to provide for the government and for so-called "light" railways. It was evident at the outset that all the members were animated by a friendly spirit. Without exception they favored the principle of the measure, which many would be of far-reaching benefit. In a country like Alberta where suitable live stock ranges are few and far between, the question of transportation is serious. A good turnpike costs almost as much as a light railway. In moving stock, in moving grain, in moving lumber, in moving coal, he would welcome suggestions or help from the government. The opposition was somewhat experimental in character and he invited full discussion.

At first the opposition members favored leaving the entire matter of guarantee to the legislature which would have had the effect of killing the bill, although they did not have sense enough to see this. It would have placed light railways on the same plane as steam roads and would have forced every company to come to the legislature on its knees and beg like a pet dog. Utterly they saw the light, and they were still reluctant to leave any power in the hands of the lieutenant-governor. They wanted to have the power to say something to say about railways themselves. They usually do have something to say about everything, but that matters any because they rarely know what they are saying. They just like to hear themselves talk.

Eventually, through the efforts of Mr. A. G. MacKay, and Mr. W. F. Puffer, the opposition members were induced to come out of the tunnel and support the bill. It was agreed that no more than 200 miles of railway should be guaranteed under the act. The next session of the legislature, no shall any further mileage be guaranteed except by resolution of the legislature.

That settled the question and one of the most progressive bills ever passed by the Alberta legislature was given its third reading and final passage.

Afternoon Session.
The supplementary estimates, amounting to \$185,000, made up of votes for farmers' election expenses, administration expenses, etc., were taken up and disposed of. The opposition fought the grant in effect class legislation. The grant was given to the grain growers of the Peace River, Charles Stewart, and the other farmers of that section. The farmers had been the business of protecting their interests in the most efficient and businesslike manner and the government was to stand by them in their efforts to free themselves from the shackles of the election and grain.

Fighting the Farmers.
The opposition was particularly anxious that the government should not be allowed to dispose of their stock to a private corporation. Such a sale would first have to be sanctioned by the farmers going to the stock and by the government of the opposition yielding. The necessary bills to validate the sale of the stock were agreed to. The members as a whole were then passed and the bill was carried to the third reading.

The opposition made no fuss over the bill respecting the Grand Trunk Pacific railway, but when it came to the clause which gave the government the right to purchase the railway, they began to show their true colors. They proposed to ignore the clause and the government was to be bound by the clause. The clause was then passed and the bill was carried to the third reading.

Quality

It is Easy to Dress Well If One Only Knows How

And with the Hudson's Bay Company right at hand it is easy to know how—so easy, in fact, that dowdiness in dress is inexcusable. Smart dressing is not merely a matter of income but the management of the income, that is, how and where you buy. The longest purse does not by any means turn out the smartest gown. It is the little things which count, and for just these highly important trifles, the woman who realises the importance of really distinctive dressing turns invariably to "The Bay." Quality in itself is saving but in addition we offer you minimum prices.

Twenty Rescuers in Welsh Mine Nearly Lose Their Lives

While Searching for Survivors of Last Week's Tragedy, Officials Were Overcome With Gas and Almost Asphyxiated—Rescued by Second Brigade.

London, Oct. 23.—Twenty were nearly added to a tragedy yesterday in the experience of a party of 20 men in the Universal Colliery at Senegeddy, Wales, which took place a week ago, when 20 men had fallen into a shaft. The men had been working in the mine for some time and had been told that the shaft was safe. They were all rescued by a second brigade of miners who arrived at the mine in time to save them from asphyxiation. JAMES ROSS LEFT MANY MILLIONS

Probated Will Reveals He Was Worth \$13,000,000—Remembers Friends.

Montreal, Oct. 23.—The will of the late James Ross has been probated and it is estimated that the estate scattered throughout the provinces of Quebec, Ontario, New Brunswick, Nova Scotia, Manitoba, Alberta, British Columbia, as well as in Great Britain and the United States, will total about \$13,000,000. It is understood that in Quebec alone succession duties will be collected on about \$5,000,000. The first person mentioned as a legatee in the testator's will, to whom he left about \$1,000,000, was a sister, Mrs. Mary Grace Ross, a sister, she an annuity of \$10,000. A codicil contains legacies to friends, by way of remembrance. The list of well known business men and include John McKay, Montreal; Granville Cunningham, London; Frederick L. Evelyn, Montreal; G. H. Board of Trade Decides Not Feasible and Withholds Its Support.

Montreal, Oct. 23.—The proposal of a Montreal world fair, brought up for consideration by the council of the Board of Trade at their meeting yesterday, was considered by that body as being a scheme quite beyond the scope of the fair, and by one vote the council decided not to extend their support to the idea.

ARSON SQUAD DESTROYS UNIVERSITY PAVILION

Left Toll-Tale Suffragette Literature Scattered About the Grounds.

London, Oct. 23.—An "arson squad" of military suffragettes today set fire to and destroyed the sports pavilion of Bristol University. They left the usual toll-tale suffragette literature scattered about the grounds. The public prosecutor decided today that he would not proceed against the women. Mrs. Flora Drummond, a leader in the suffragette movement, was in the group. She was charged with the arson, but she was acquitted. The women were all released.

JOHN BULL FOUND GUILTY OF NEGLIGENCE OF BURNED WIFE

Indian and His Spouse Get Intoxicated With Fatal Consequences

FAILS TO REPORT HER INJURIES OR GET DOCTOR

Fearful That Purchase of Liquor Would Lead to Trouble—Asked Friends to Maintain Secrecy.

The unlimited possibilities of the Indian nursing system are shown in the case of the few touches of a humorous nature which served to relieve the otherwise serious and comical situation yesterday afternoon in the criminal branch of the supreme court.

"John Bull" is one name, and the other is a redskin of the ancient tribe of the Signes, near Wabunan Lake. "Paul Fire" was the other name, and the Indian name of the Indian. He is a friend of John Bull's, and was an important witness in the case.

The time was May 10, 1913. The place, the town of Stony Plain. The occasion was a visit of John Bull and his wife to town for the purpose of making sundry small purchases. John Bull, John's wife, made one fatal purchase, not usually or lawfully included in an Indian's shopping list.

She bought a quart bottle of whiskey. John and his wife both became very drunk. Feeling cold and sleepy about midnight, they built a fire. Sitting in the room, they were both asleep. John Bull was supported by her husband. About daylight John Bull was awakened by the faint screams of his wife, who had somehow or other fallen into the fire. Scared into society and wakefulness, John Bull rushed for his wife, whose clothing was already in a blaze. He burned his hands severely, but made no effort to extinguish the fire. After soaking a shawl in a rough manner and making her pain as well as he could, he wrapped his overcoat around her and started out on foot for the police's reservation at Wabunan Lake.

After tramping nearly the whole day, the Indian found his burden too heavy, placed the suffering woman on the ground and lit a fire. A little while after sunset, Paul Fire came along. With the newsmen, John Bull was able to make a crude sort of litter, and having placed Jane on this, they tramped along the trail most of the night until they reached their reservation. There, in his hospital, John Bull tended his wife, applying Indian herbs and talismans to the burn marks, from May 13 to June 21, on which date the woman died.

On that fact the charge of the crown is based. The prosecutors succeeded in proving that the unhappy couple were most anxious not to have the woman's condition known to the authorities of the Indian department for fear of the consequences arising from the purchase of the fire-water.

Although the news of the mishap had become more or less common property throughout the reserve, the woman's condition had not reached Mr. H. Patterson, the Indian agent of the reservation, or Dr. Anderson, the dominion government Indian doctor. John Bull stated that he had taken to have his wife removed to a hospital, but she refused.

Mr. Cuswell, in pressing home the charge, dwelt on John's neglect in not sending for medical aid, an admission which had exposed him as having caused his arrest. The prosecution also forced a practical confession of the reason for this secrecy.

Mr. Cuswell: Q. Did you tell many persons not to speak about the burning?

A: No.

Q. The witnesses say you did.

A: Well, I don't remember.

Q. Why did you not go to the doctor?

A: Because I wanted to stay with my wife.

Q. What did you fear would happen if you told your chief, the doctor or the agent?

A: I knew I should get into trouble over the liquor.

Q: Well, you know the other say you told them not to mention it to anyone.

Mr. Laney: In a very eloquent plea before the jury, dwelt with telling emphasis on Dr. Anderson's testimony, in which the doctor admitted that when he saw the body, after it had been examined for the autopsy, he was of the opinion that it would have been impossible to save the woman's life even with his professional aid, so badly had the body been burned.

In rebuttal and in a final word to the jury, Mr. Cuswell urged strongly for conviction on the ground that the woman had been protected so freely off by the government.

After an absence of over half an hour, the jury returned with a verdict of not guilty of culpable homicide, but guilty of negligence. Sentence was reserved.

Many Reasons Why Liquid Cough Mixtures Can't Cure Bronchitis

But the Healing Fumes of Catarrh-zone, Which are Breathed to the Furthest Recesses of the Bronchial Tubes, Bring Quick Relief and Sure Cure.

Every sufferer from coughs, colds, bronchitis and all throat and chest ailments needs a soothing, healing medicine which goes direct to the breathing organs in the chest and lungs, attacks the trouble at the source, disperses the germs of disease, and cures the ailment thoroughly. And this medicine is "Catarrh-zone."

The germ-killing balsamic vapor mixes with the breath, descends through the throat, down the bronchial tubes, and finally reaches the deepest air cells in the lungs. All parts are soothed with rich, pure, medicinal essences, whereas with a syrup the affected parts could not be reached, and harm would result through burning the stomach with drugs.

"I have been a chronic sufferer from catarrh in the nose and throat for over eight years. I think I have spent four hundred dollars trying to get relief. I have spent but six dollars on Catarrh-zone, but have been completely cured, and in fact, have been well for some time. Catarrh-zone is the only medicine I have been able to find that would not only give temporary relief but will always cure permanently. Yours sincerely, (Signed) WILLIAM BRYAN, Brockville, Ont.

For absolute, permanent cure, use Catarrh-zone. Two months' outfit, costs \$1.50; smaller size, 50¢, at all storekeepers and druggists, or The Catarrh-zone Company, Buffalo, N.Y., and Kingston, Canada.

BREAKS A COLD OPENS NOSTRILS

"Pape's Cold Compound" ends severe colds or grippe in few hours.

Your cold will break and all grippe misery end after taking a dose of "Pape's Cold Compound" every two hours until three doses are taken. It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing end snuffing! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25¢ at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.

BACK WAS LAME FOR TWO YEARS

Stomach Troubles and Weakness of Kidneys Cured by Dr. Chase's Kidney-Liver Pills.

There is an enormous amount of suffering from liver and kidney derangements and stomach troubles that could easily be avoided by using Dr. Chase's Kidney-Liver Pills. If you could only realize the scores of thousands who would not be long in giving this medicine a trial.
Mrs. Edward Stewart, New Richmond, West. Que., writes: "I want to tell you how thankful I am for using your Dr. Chase's Kidney-Liver Pills for stomach troubles and backache caused by weak kidneys. I was unable to wash any clothes for over two years on account of my back being lame. I read the Almanac and began using these pills. Two boxes made a complete cure. I can do my own washing and other work now, and I want to say to my friends that they do not know how much I appreciate Dr. Chase's Kidney-Liver Pills."

ST. LAWRENCE LEVELS.

Ottawa, Oct. 22.—A commission to report upon the question of water levels on the St. Lawrence and the great lakes, with particular reference to the effect upon them of schemes of water power development, has been selected, but a start at operations is delayed owing to a difference of opinion as to whether the operating headquarters should be at Montreal or Ottawa.
The commission as proposed consists of Prof. McLeod, of McGill; Mr. Arthur Surveyor, Montreal; and Mr. G. R. Coules, of Montreal. Inquiry yesterday solicited the statement that no definite arrangement has yet been made for proceeding with the work, mainly owing to the reason stated.

NEW KING'S PRINTER.

Ottawa, Oct. 22.—The Evening Citizen says: "Though there is so far no official announcement on the subject, it is understood that Mr. Louis Cousineau, of Hull, will this week be the pointed acting king's printer at the government printing bureau, during the illness of Mr. P. M. Draper, king's printer. It is also rumored that Mr. Cousineau will eventually succeed Mr. Parnelle, and that Mr. P. M. Draper will be promoted to the office of assistant king's printer."

Mr. Cousineau was conservative candidate in Wright county at the last general election.

34 WATCHES ARE GIVEN MEN OF KROONLAND CREW

Rescuers of Volturno Victims Receive Gifts From Passengers of Wrecked Ship.

New York, Oct. 22.—Thirty-four brand new time-pieces will tick in the pockets of 21 members of the crew of the Red Star liner Kroonland when the vessel sails for Antwerp this morning.

Those with these shiny gold watches came by them yesterday afternoon when a committee of passengers who crossed the Atlantic on the steamer's last trip when almost 100 of the crew and passengers of the burning Volturno were rescued in mid-ocean, went to the Red Star line pier, boarded the vessel and distributed them. Captain Kreibohm, of the Kroonland, received a silver cigar case, and the four officers, who commanded the rescue boats also received suitable gifts in acknowledgment of their bravery. Speeches of presentation were made by A. Le Squires, a New York lawyer, who was a passenger, and the tokens were presented by Miss Margaret Belmont, daughter of Mrs. W. B. Belknap, who was also present.

Following the ceremony, a dinner was served by Captain Kreibohm.

FEEL HEADACHY, DIZZY, BILIOUS? CLEAN YOUR LIVER! A DIME A BOX

Sick headaches! Always trace them to lazy liver; delayed, fermenting food in the bowels of a sick stomach. Poisons, constipated matter, gases and bile generated in the bowels, instead of being carried out of the system, is reabsorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, sickening headache. Cascarets will remove the cause by stimulating the liver, making the bile and constipation poison move on and out of the bowels. One taken tonight straightens you out by morning—a 10-cent box will keep your head clear, stomach sweet, liver and bowels regular, and make you feel bright and cheerful for months. Children need Cascarets, too.
